

Apple ID & Passwords

At Larmenier we use Meraki Management System to deliver apps to your child's/ren's iPad. To do this it must be linked to your Apple ID. In the past we have encountered a few problems when children don't know their Apple ID password and we cannot send the Apps to them. This often means that the child cannot complete a set class task or if there is a problem with their iPad, it cannot be fixed.

We would like to keep your Apple ID and password, also any restriction pin numbers, here at school to make the delivery of apps to iPads and iPad maintenance simple. Your details will be stored securely in the office and can only be accessed by ICT staff.

Thank you for your cooperation.

Allison Cornish & Sam Milbourne
